BVLGARI
ROMA

THĒLIOS

BVLGARI

Bulgari was founded in Rome in 1884 by Greek silversmith Sotirio Bulgari. Born in the Epirus Mountains, Sotirio was raised in a world of myth and metal smithery, a vital art of his region handed down from Byzantine times. In the vast imaginarium rooted in those places, Sotirio cultivated a vision that has proven to transcend the boundaries of time and space. His courage and special sensitivity to the artistic tenor of the world around him nourished an eclectic talent which was transmitted to the future generations and shaped the impressive evolution of the family firm. In a few decades, Bulgari forged a distinctive style made of daring color combinations, exquisite volumes and designs inspired by the rich artistic and cultural heritage of Rome and of the Mediterranean that defined a new paradigm in the jewellery universe.

The Company definitively gained international visibility during the Dolce Vita era (1950s-1960s), when the Bulgari shop in Via Condotti, Rome, became a favorite meeting place for a cosmopolitan elite of artists, actors and members of the jet set. The pioneering spirit of the Bulgari family led the Company to grow and express its bold creativity also in the world of watches, accessories, perfumes and hotels. Since 2004, the Maison has also inaugurated Bulgari-branded, five-star luxury hotels in major capitals and international tourist destinations. Today renowned as the Magnificent Roman High Jeweler, icon of contemporary Italian Art of Living, Bulgari constantly looks at every creation and Brand experience as a quest to capture the senses and nourish the soul.

BVLGARI

BULGARI EYEWEAR COLLECTION

The collection is designed and manufactured in Longarone, Italy. Bulgari frames feature handmade jewellery manufacturing techniques, refined materials and precious finishes (gold plated; galvanic treatment; jewellery finish).

Bulgari's eyewear expertise is illustrated through bold and contemporary frame designs, sophisticated technicity and qualitative packagings. To ensure the best fitting to every face, several lines and frames are available in our collections, for men and women.

The design of sun collection is modern and trendy, optical collection is adapted from the sun, yet very comfortable and wearable.

Bulgari uses several types of sun lenses with high added value and different colors and finishes, to meet every customer expectation.

BVLGARI

SERPENTI

Bulgari's Serpenti captures the Maison's Mediterranean roots, imaginative design and artisanal virtuosity. In its infinite metamorphosis, this motif conveys the aesthetic dynamism of a visionary Brand. From 1948 Bulgari honed in on this ancient symbol of renovation and transformation, and for the first time in the design universe revisited it in stylized bracelet-watches. In the early creations, the flexuous Tubogas band replicated the reptile's spirals, and their functional elegance meant immediate success. Over the decades, Serpenti has evolved with the spirit of the times while keeping its magnetic features intact. A creative saga in line with the Maison itself, which transformed from Roman jeweler to global luxury house.

SERPENTI HIGH END

Inspired by one of the first Serpenti figurative variants introduced in the 1950s, when the entire body of the snake started to experiment an infinite metamorphosis. Hundreds of small gold beads are masterfully soldered on the central gold coil, adding movement and rich tactile appeal to the reptile's precious skin.

LIMITED EDITION

Numbered inside the temple, coming with exclusive coffret

TRUE PIECE OF JEWELLERY

Inspiration from Bulgari jewellery masterpieces

PRECIOUS MATERIALS & CRAFTSMANSHIP

Gold plated. Snakehead motif hand set with natural stones:
zircons pavé and onyx eyes

JEWELLERY MANUFACTURING TECHNIQUES

Beads made by casting; zircons set like diamonds
(no glue used to set the stones)

BVLGARI

SERPENTI VIPER

Playing with the purest interpretation of Serpenti's iconic design, its modular construction features the scales hinged together and inserted one by one over a wrapping coil. Sleek and stackable, the Serpenti Viper creations wrap around the body like powerful armors, inspiring endless ways to style them.

INSPIRED BY SERPENTI VIPER JEWELS

Faithful reproduction of Bulgari Serpenti's design:
modular & sleek

SNAKE-INSPIRED DESIGN DETAILS

Distinctive feature characterising the frames

MULTIPLE INTERPRETATIONS

Complementary combi & metal designs

TRUE TALKING PIECE

Bold reinterpretation of the Serpenti Viper concept

BVLGARI

SERPENTI FOREVER

A powerful embodiment of Serpenti's infinite metamorphosis, Serpenti Forever is an exclusive bag featuring the iconic snakehead clasp that powerfully guards women's secrets while the finest leathers are tinged with gem-inspired color palette.

INSPIRED BY SERPENTI FOREVER HANDBAGS

Faithful reproduction of the iconic snake head clasp

PRECIOUS MATERIALS & TECHNIQUES

To highlight the value behind the price positioning

SNAKE-INSPIRED DESIGN DETAILS

Common thread all around the frames

BVLGARI

B.ZERO1

As a true emblem of design, B.zero1 is a testimony to a pioneering research: the fusion of Roman epigraphy in Bulgari's logo and the industrial lines of the Tubogas spiral. The expression of Italian Genius as the ability to think big and find solutions that no one has explored before. An icon with countless interpretations that rewrote the rules of jewellery.

INSPIRED BY B.ZERO1 JEWELS

Iconic design with ceramic tubogas spiral

MULTIPLE INTERPRETATIONS

Easy to wear acetate style, metal interpretation, etc.

JEWELLERY DETAILS AND SOPHISTICATED METAL INTERPRETATION

BVLGARI

OCTO

Bulgari's watchmaking ambitions and visionary horological approach fuse with the concepts of balance and harmony universally associated with the octagon. Transcending traditional standards governing men's watches, Octo's eight-sided structure framed by a round bezel proclaimed a break with the aesthetic conventions of pure classicism.

OCTO HIGH END

Launched in 2017, the Octo Roma watch symbolises the purest interpretation of the Bulgari take on the octagonal shape. An inimitably stylish focus on essentials is the secret of its timeless and harmonious lines ensuring peerless comfort.

LIMITED EDITION

Numbered inside the temple, coming with exclusive coffret

HIGH-END PIECE, INSPIRED BY

BVLGARI

OCTO FINISSIMO

Since its emergence in 2014, the Octo Finissimo collection has redefined traditional Haute Horlogerie, reinterpreting classic and sophisticated watch complications in a resolutely contemporary manner symbolising Bulgari's own Estetica della Meccanica: the art of absolute innovation in form as well as in substance.

HIGHLY TECHNICAL OFFER

Inspired from the award-winning Octo Finissimo timepieces

MADE IN JAPAN MANUFACTURING

Japanese savoir-faire: thoughtful execution with extreme attention to detail

TITANIUM PROPERTIES

Extremely light, resistant & qualitative

DESIGN FEATURES

Inspired by Octo Finissimo watches: multi-layer, faceted design

BVLGARI

BULGARI ALUMINIUM

Since 1998, Bulgari Aluminium speaks a universal language that goes far beyond gender, age and trends: two unconventional materials – aluminium and rubber – are reborn in an unexpected juxtaposition and transformed into a luxury creation through vision and execution. Today as yesterday, this simple yet striking graphic combination of black and white is a design choice that shows the unerring artistry of Italian genius.

SPORTY YET TECHNICAL OFFER

GLOSSARY OF ICONS

— Advertising

Style featured in the advertising campaign

— Base

Curvature of the lenses - commonly based on the measure of the radius (mm)

— Bridge Size

Minimum horizontal distance between the two lenses (mm)

— Eye Size

Horizontal size of the lenses (mm)

— International Fitting

Style available in international fitting, i.e., a fitting suitable mostly for Caucasian features

— Universal Fitting

Style available in universal fitting, i.e., a fitting suitable for both Caucasian and non-Caucasian features mostly

— Front Material

Main material used for the front part of the frame

— Gradient

The gradient effect is a colour change within the full size of the lens in the vertical direction from top to bottom.

— Height

Vertical measurement of the lens starting from the bottommost part of the lens straight up to the top (mm).

Allows to assess the suitability for prescription glasses

— Mirror

Lenses with a reflective mirror coating on the outside. Like a regular mirror, mirrored coated lenses reflect light away from the eyes of the wearer

— Polarized Lenses

Lenses made of a polarized filter forming a barrier preventing the reflected light from entering and harming the eye

Polarized

— RX-able

Frame also suitable for prescription lenses

— Temple Length

Measurement of the arms of the frame (mm)

— Temple Material

Main material used for the temples of the frame

— Temple Tip Material

Material used for the end of the temple, behind the ear

— UPC Code

Universal product code, specific for every SKU
